Consultant – Process Safety

Details
Location: Austin or Houston, TX
Position Type: Direct hire
Compensation: Salary commensurate with experience

Position Summary
Kestrel Management is seeking an experienced Consultant with a strong process safety background to join our team. The ideal candidate will possess a detailed understanding of PSM regulations and a deep knowledge of industrial operating procedures to help our clients proactively address their safety-related risks.

Responsibilities
• Provide technical assistance on process safety-related compliance projects, safety management system development and implementation, and auditing
• Develop process safety procedures, plans, permits, and reports
• Perform compliance audits and implement follow-up corrective actions to ensure compliance with applicable regulations
• Design and implement safety management systems and programs for clients
• Conduct training, coaching, and assessments for safety performance improvement projects
• Provide onsite compliance support at client facilities
• Manage multiple projects within scope/budget/schedule expectations and ensure quality standards on project deliverables
• Support other Kestrel professionals to effectively manage and deliver projects
• Effectively steward and build client relationships leading to repeat business

Requirements
• Bachelors in safety, occupational health, engineering, or related degree; Masters preferred
• 5 to 8 years relevant consulting experience working with significant industrial clients on process safety compliance and safety-related management systems; experience in petrochemicals and/or oil and gas highly desirable
• Certification in field; ASP/CSP, PE, or similar registration highly desirable
• Strong knowledge of OSHA PSM and other safety standards
• Demonstrated ability to provide detailed regulatory interpretation OSHA regulations
• Excellent communication, interpersonal, MS Office computer, and analytical skills
• Experienced in writing comprehensive technical reports
• Willingness and ability to learn and use technology – hardware and software – to meet clients’ needs
• Willingness to travel, both within the U.S. and to international locations; must have or obtain a valid passport
