SUMMARY OF POSITION

Tracerco is the established industry leader in the field of developing advanced technologies for field inspections and process data measurement as well as the application of the data to provide solutions for refinery and chemical operations. We are seeking self-motivated Chemical Engineers to join our team.

Current needs include positions in Pasadena (Houston), Texas and Baton Rouge, Louisiana. The incumbent would be responsible for fieldwork including but not limited to the collection of data, the interpretation of the data, and providing potential technical solutions for process improvements and operating problems. You must have the desire to work in the field (this is NOT a desk job) and to work with mass transfer equipment as well as other chemical and refining processes.

TRAINING, EDUCATION, EXPERIENCE, SKILLS AND OTHER QUALIFICATIONS REQUIRED FOR THE POSITION:

B.S. in Chemical Engineering is required. Must possess strong leadership and communication skills. Must be able to work in a team-based environment. The position will require the ability to travel frequently, on short notice. Must be able to obtain a U.S. Passport. Must be willing to submit to drug/background/physical screening.

For additional information on our Company and our services please visit our web site at www.tracerco.com. We offer competitive compensation and benefits.

If qualified and interested please forward resumes to wdjobs@jmusa.com.
