“MKOPS gave me the theory; BP is giving me the ‘real world' experience.”

Michela, Process Safety Engineer

We need more process safety professionals like Michela.

With upstream projects in 26 countries around the world, a career with BP can take you anywhere from the ice of the tundra to the deep sea, from the sand of the desert to the tropics. The diversity of our business and the sophistication of our processes demand the very brightest talent the industry has to offer. So we're looking for people with energy, ideas and a passion for problem solving.
